LECTURE

LECTURE TABLE series

ENGAGE IN COMMUNICATION

This is a simple design practical, future oriented multi functional table that's strong and practical, suitable for auditorium, large scale training center and academy. It's possible to arrange individual unit of the table and after the use it's possible to fold it to keep.

LECTURE

SLIM DESIGN AND EFFICIENT MECHANISM

The folding table series is a functional table system that makes the use of the space more efficient and its elegant frame structure and board increases the completion of the design.

LABORATORY

EXPERIMENT TABLE series

SAFE & EFFICIENT SCIENCE CLASSES, LAB SYSTEM

Laboratory series opens the future of science by designing a safe and pleasant laboratory. Designed with education engineering in mind, it is designed for various educational situations in the lab, and provides a creative and motivational lab environment.

LABORATORY

EXPERIMENT TABLE series

SAFE EXPERIMENT, SPACE FOR STUDENT

The laboratory furniture was made to deal with several types of scientific activity and it's easy to mix or reconstruct the space.

Central control is possible for facilities, as various equipment is stored easily.

Chemical resistant HPM is applied to the experiment board and sink, so as to prevent color change by chemical material and damage by scratches, and to repress the growth of virus.
