Office Furniture
Emotional System Power

www.jwesys.com

New MegaView is designed to create a highly functional office by seamlessly organising the space of which work is done. The result is free environment in which productivity is maximised.

Multi media, document storage and active files have their own place and space, leaving work surfaces clear of obstructions.

New MegaView provides independent and private space with its individual work zones. Modular units facilitate customization in space organization.
The system maintains the ideal, uncluttered working environment for users.
It also enhances communication capacity by facilitating network cabling with its complete wiring systems.
Complex communication patterns characterize the modern office. New MegaView series provides layouts which guarantee privacy and yet, simultaneously, creates the openness and a space in which ideas can flow.
By utilizing partitions of varied heights, privacy and seamless communication is assured.

Our multi-functional workstation removes all clutter. Multi media, document storage and active files have their own place and space, leaving work surfaces clear of obstruction. Both in private space and in open plan, design is efficient and purposeful.
Expandable tables attached to the main desk create larger working areas which can be also used as meeting zones.

Ergonomic design facilitates smooth cooperation when team work is necessary. Privacy is maintained by the separation of each working space by panels. Work efficiency is maximized in the "L"-shaped worktop.
Partitions of varied heights facilitate communication. Independence is maintained by the separation of the working space with glass panels.
Work surfaces are large enough to accommodate multimedia equipment while leaving sufficient room for work activities.

New MegaView provides independent and private space with its individual work zones. Modular units facilitate customization in space organization. # Tile Collection

The New MegaView panel system is steel-based, but fabric, glass, white board, melamine and functional tiles are also available. Attachable/detachable tiles are easily adapted to the structure.

▲ Tile Edge

Tackable/Acoustical

Clear Glass

Painted Embossed Steel

Fabric Wrapped

Textured Glass

Painted Steel

Wooden Tile

Airflow Brushed Steel

Cable tiles are easily connected to the frame.

# Wire Management Systems

With the movement of staff and changes in business processes, New MegaView can be relied to facilitate a smooth transition. Data electrics and voice ports are conveniently installed to provide easy access to multimedia appliances.
▲ Fibre optical cables, telephone, data and electrical wires are easily accommodated at raceway or desk height level.

▲ Adequate space within frames facilitates heavy and complex wiring.

# Storage Solutions

With office automation, storing information and data has become an important issue. The New MegaView storage system provides the office with a variety of storage options. Lateral filing cabinets are available in four-drawer, three-drawer and two-drawer combinations.

Three drawer and two-drawer mobile pedestals roll easily under desk surfaces and provide staff members with easy access to small and regularly used items.

All storage items are made from heavy gauge steel. Steel ball bearings which allow for the smooth opening and closing of drawers.

Partitions of varied heights facilitate communication. Independence is maintained by the separation of the working space with glass panels. Work surfaces are large enough to accommodate multimedia equipment while leaving sufficient room for work activities.
New MegaView's full glass panels can be arranged to provide private meeting rooms and offices while, at the same time, allow visibility to the open office. Panel-hanging storage cabinets are securely installed for an abundance of overhead storage. Mobile pedestals in two-drawer and four-drawer arrangements slide easily under work surfaces for additional secure storage.
