The core is efficiency, but the ultimate object is human

People's intellectual abilities can be exercised in the business space, which is designed in consideration of freedom and coziness for the human body. Working efficiency can be maximized in a business space that enables people to demonstrate freethinking and creativity. By using module systems with simple and functional designs sure to please each user, we seek to create a new office environment where people can enjoy working.

With a pure, clean cherry grained finish, the Executive system reflects the unique functionality of Modern office furniture by minimizing unused space. The design takes into account the economy of the working environment while also utilizing vertical space to maximize storage capacity. This makes the Executive system a very practical and efficient office system.

GENERAL SYSTEM has been designed to best meet the requirements of users through its abundant items and module that serve to satisfy personal and departmental needs and to respect the interior quality with its aesthetic features.

Depending on function and usage, various models of drawers are provided, including the independent type, positioned at the lower part of the desk, and the extension type, which extends the workspace to the same height of the upper panel.

Considering form, size, and storage capacity allowed by the workstation structure, you can efficiently create your storage system by selecting from a wide range of bookshelves, cabinets and file drawers. The storage space is provided in various sizes and designs according to international standards, so that various data companies need can be arranged and stored in one place.

The conference tables are offered in various sizes and shapes, (including square, round, and composite shapes), to utilize space efficiently and enhance the flow of conversation to the fullest by allowing quick adjustment based on your attendance needs.

New Summit system

With a team-oriented structure, this desk secures an independent personal workspace for the team leader and members, and promotes streamlined cooperative activities. You can design an efficient workstation appropriate to your business by adding auxiliary extension tables with various functions to the basic unit.

CONFERENCE TABLE

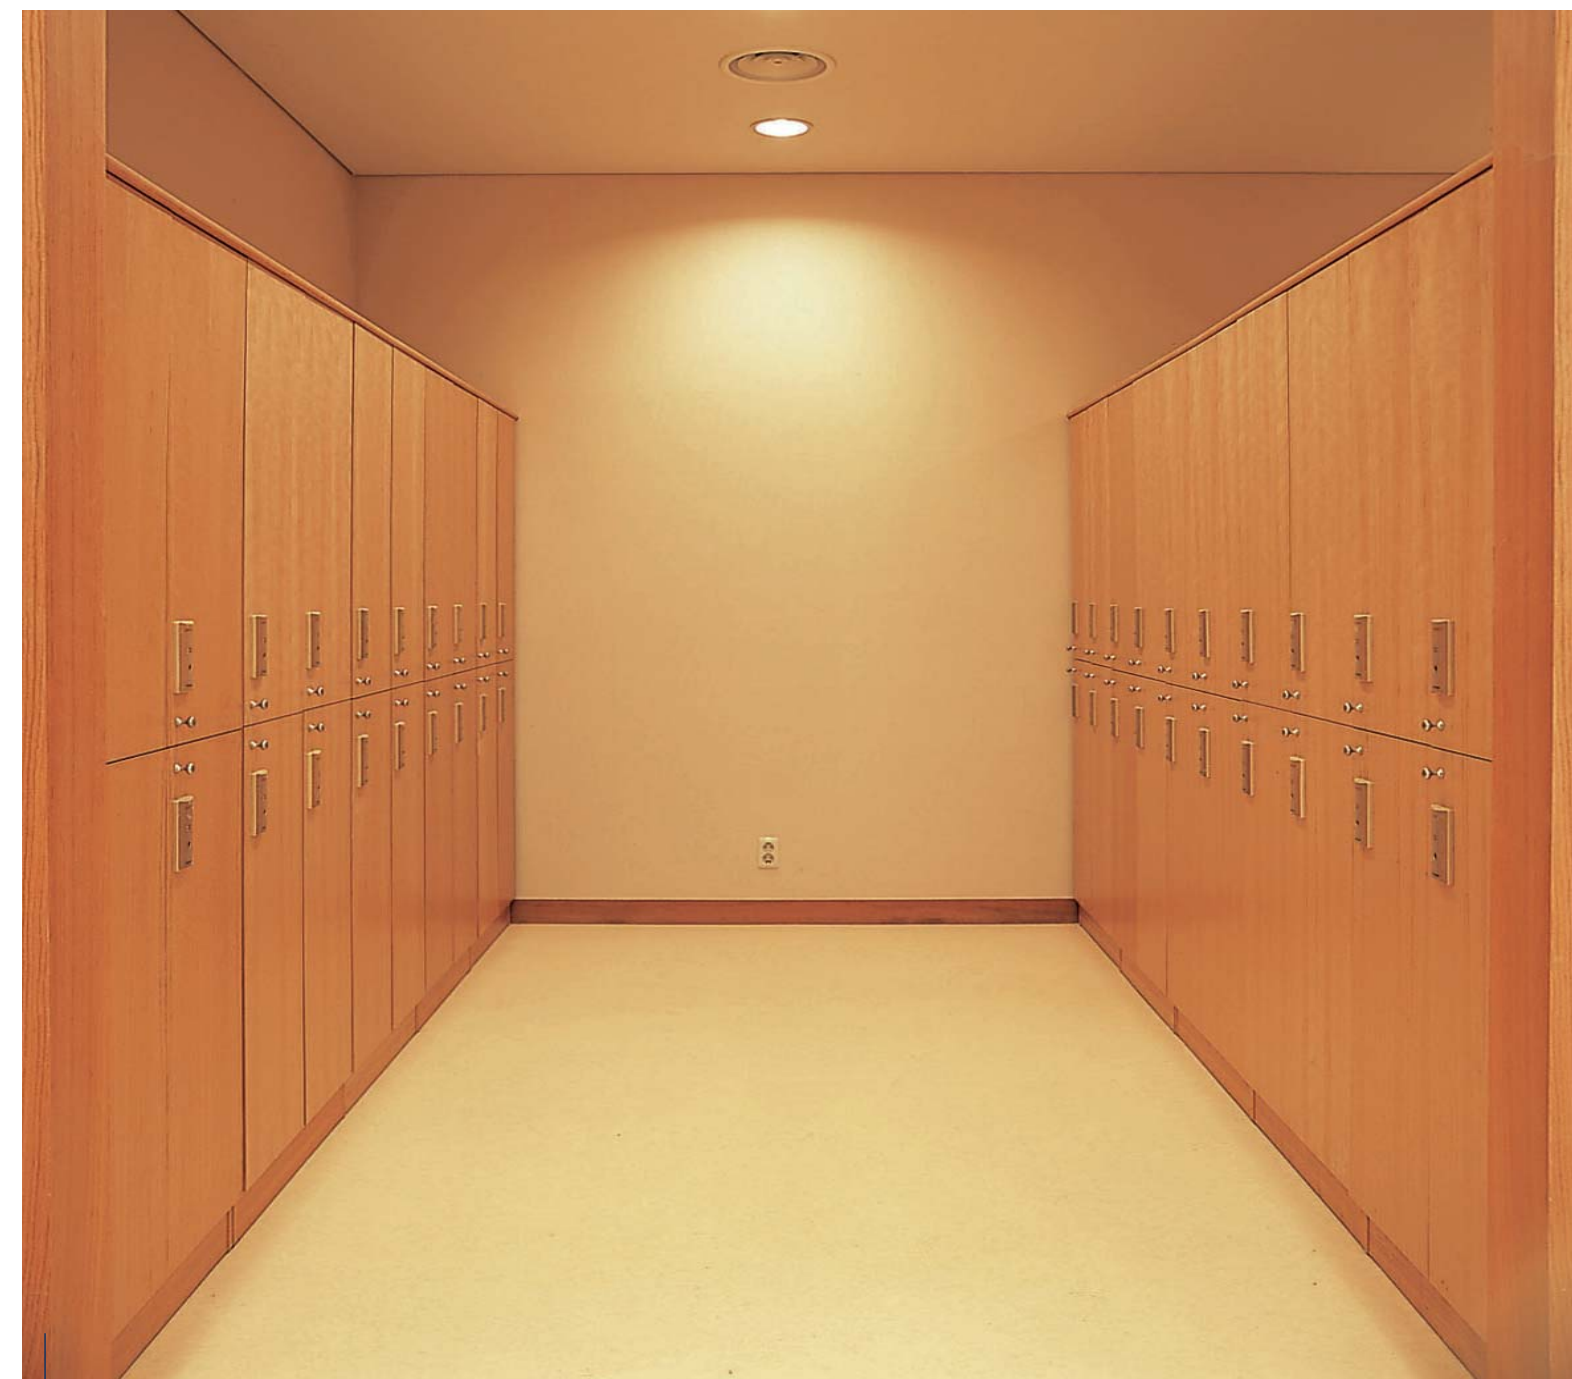

CONFERENCE TABLE

General seminar system

The folding tables suitable for seminars, educational activities, and conferences whose personnel and size frequently vary are easy to expand or reduce into a flexible layout, enhancing the efficiency of your business by quickly adjusting to space and usage requirements.

Locker system

Modern living space requires a comfortable atmosphere in a natural environment, facilities for rest, and other unique characteristics, depending on the functions and roles of the space. In order to meet such requirements, we produce and provide special customized furniture for apartments, dorms, public facilities, and resorts, by harmonizing functionality and space-based requirements with the environment through structure-oriented interior designs.

General Cabinet system

Considering form, size, and storage capacity allowed by the workstation structure, you can efficiently create your storage system by selecting from a wide range of bookshelves, cabinets and file drawers. The storage space is provided in various sizes and designs according to international standards, so that various data companies need can be arranged and stored in one place.
